ABOUT COSO PARTS

COSO PARTS is a United States based supplier of heavy-duty truck body parts. We serve fleets, owner-operators, collision and repair shops, and parts distributors looking for a straightforward source of replacement body and appearance components for the Class 8 trucks that run on American roads.

This catalog covers the models we are asked for most: Freightliner Cascadia from 2008 through the 2026 body style, Columbia and M2 Business Class, Kenworth T680 including the Next Gen, International LT625 and Western Star 57X, together with a complete line of deer guards and vehicle-specific mounting kits for Freightliner, Kenworth, Peterbilt, International and Volvo.

Every item is listed with our part number, a clear product photo and, wherever it applies, the matching OEM reference. That means you can check a part against the number already in your system and order the right piece the first time.

Tell us the part number, or simply the year and model of the truck and what you need, and we will come back to you with price and availability. Call us, email us or send a message on WhatsApp. We are glad to quote from a photo of the damaged part.

WHAT WE SUPPLY

- Front, corner and center bumpers
- Bumper end caps, brackets, reinforcements
- Headlamps, fog lamps and LED assemblies
- Grilles, bug screens and bezels
- Upper, middle, lower and side fairings
- Fenders, mud flaps and wheel closeouts
- Hoods, cowls, kick plates and door trim
- Tread steps, step panels, rubber strips
- Hinges, hardware and fitting kits
- Deer guards and mounting brackets
